UI/UX Plugin Designer for WordPress plugins

Description

[WPMU DEV](#) creates some of the world's most popular WordPress plugins. We have been at the forefront of our industry for over a decade. If you're not familiar with us, we invite you to Google our name or explore our free and premium services like Smush.

We are looking for creative UI/UX Designers with a keen eye for detail and a strong commitment to design consistency to join our Products team.

As a UI/UX Designer, you will create visually compelling and user-friendly interfaces for our plugins. You will collaborate with developers and product managers to deliver intuitive, aesthetically pleasing, and functional user interfaces that enhance the overall user experience.

Responsibilities

As a UI/UX Plugin Designer at WPMU DEV, you'll get to do more than design interfaces. You'll showcase your expertise in team collaboration, prototyping, and testing. More specifically, you'll get to:

- Create intuitive and visually appealing UI designs for leading WordPress plugins using Figma.
- Collaborate closely with developers and product managers to brainstorm ideas and iterate on designs.
- Conduct research on competitors' designs and industry trends.
- Develop user journeys, flows, and wireframes, ensuring usability and user-centric design principles.
- Maintain and work within our design system built in Figma.
- Propose innovative design ideas and variations, contributing to product enhancement.
- Stay updated with the latest trends in UI design and web technologies.
- Commit to working a minimum of 40 hours per week on various projects.

Qualifications

Essential attributes and experience required:

- Proven experience in UI/UX design, specifically within WordPress projects.
- Thorough understanding of WordPress, plugins, and the ecosystem's opportunities and limitations.
- Proficiency in Figma for design creation and prototyping.
- A strong portfolio showcasing skills in UI/UX
- Portfolio demonstrating creative and user-focused design solutions.
- Strong understanding of UX principles, user journeys, and user flows.
- Excellent communication skills and ability to collaborate effectively with cross-functional teams.
- Experience in conducting competitive analysis and user research.
- Ability to manage multiple projects simultaneously and effectively liaise with your Product Manager.
- Experience contributing to or managing design systems.
- Strong communication skills with proactive responses to emails and Slack messages.
